## How does it work?

1. Sign up at: <https://www.flashvote.com/syracuseut>
2. Fill out a survey
3. See the results

The answers provided to survey questions will help shape city decision making. **FlashVote does NOT share personal information.**

Your input is essential to the City's decision-making process, but past online surveys have not always reflected a majority of opinions. We have partnered with FlashVote to make it easier to make your voice heard. FlashVote lets us send one-minute surveys to residents who sign up to share their opinions on important local matters. The surveys are quick and sent every month—we will not flood your inbox or share any personal information. When each survey ends, FlashVote sends the anonymized results to everyone who participated, and the city gets valuable feedback from the community.

**Safe, Secure, and Scientific.  
Make your voice heard. Vote Now.**
